

AMIR ALIZADEH

Chicago, IL | (872) 359-8181 | amir.alizadeh@kellogg.northwestern.edu

MBAi student at Kellogg School of Management with a background in software engineering and technical product management, focused on building data-driven products that drive innovation, efficiency, and measurable business impact

EDUCATION

2024 - Present	KELLOGG SCHOOL OF MANAGEMENT MCCORMICK SCHOOL OF ENGINEERING NORTHWESTERN UNIVERSITY <i>Candidate for Joint Degree: MBA, Artificial Intelligence, March 2026</i> Leadership: VP of '26 ETA Club, VP of '26 KFit Club, Student Section Leader <i>The MBAi program is a joint AI-focused MBA degree from Northwestern's Kellogg School of Management and McCormick School of Engineering, which develops analytically driven leaders with the technical foundation to develop, implement, and manage technical products and direct AI-enabled businesses</i>	Evanston, IL
2018 - 2022	AALTO UNIVERSITY <i>Master of Computer Science</i> Leadership: Director of Aalto's Computer Science Guild, Aalto Startup Sauna, and Aalto Music Club	Espoo, Finland
2014 - 2018	UNIVERSITY OF TABRIZ <i>Bachelor of Information Technology and Management</i>	Tabriz, Iran

EXPERIENCE

2025 - Present	LOOKOUT PEST <i>Business Operations Intern (AI Integrations)</i> Led the integration of a third-party AI solution into the contact center in partnership with the COO, ensuring business impact and vendor performances	Evanston, IL
2025 - 2025	PHARMACY DATA SOLUTIONS <i>MBA Summer Intern (AI Integrations)</i> Designed an AI-powered tool to automate document processing, improving scalability. Conducted data analysis and developed Power BI dashboards to generate client-facing reports, helping improve client satisfaction	Richmond, VA
2021 - 2024	PLAYABLES.AI <i>Senior Software Engineer - Internal Tools Team</i> - Led development of company's ad-making tool (QS Engine), generating 40% of total revenue and securing licensing contracts with many companies including one of the biggest streaming services in market - Designed development roadmap, incorporating user stories and user journeys to inform feature prioritization - Led early development of QS Smart Assistant, using QS Engine data to train a GPT model for executing user commands. Reduced task time by 50% and automated 60-70% of routine tasks for new users	Helsinki, Finland
2021 - 2023	LEGENDS OF LEARNING (EDUCATIONAL GAMES FOR STUDENTS) <i>Founder, CTO</i> - Led a cross-functional team of 12 developers to create and launch educational video games, resulting in 1,330+ hours of gameplay, 4,050 teacher assignments, and a 4.23/5.0 average feedback rating - Executed a data-driven go-to-market strategy by studying successful educational games, convincing teachers to use our games as assignments, leading to top rankings in science and math among all schools in LoL platform - Enhanced replayability and engagement through user research, increasing monthly retention by ~30%, optimizing input controls using A/B testing to identify student preferences between mousepad and keyboard	Espoo, Finland
2019 - 2021	PAF GAME STUDIO (FINNISH GAME STUDIO) <i>Software Engineer</i> - Developed a no-code game-making tool, accelerating the studio's prototyping pipeline and improving efficiency across two international teams by minimizing redundant steps in the development of casino games - Led the strategic planning and execution of migrating the company's technical infrastructure to Amazon AWS, collaborating with cloud engineers to align with business goals and reduce operational costs by 20%. - Directed technical development of studio's most profitable game, generating more than \$2M in gross revenue	Helsinki, Finland
2016 - 2022	VOID GAMES STUDIO (STUDENT-LED GAME STUDIO - PC GAMES) <i>Co-Founder, CTO</i> - Led a team of 5 engineers to develop and release a PC game for the global market, generating over \$15K in revenue. Met technical milestones and created documentation to simplify onboarding for new engineers - Tracked KPIs such as average session length, player progression, and feature adoption. Hosted testing sessions with random students within the school, implementing feedback loops that increased completion rate by 25%	Tabriz, Iran

ADDITIONAL DATA

- Skills: Product Management (Roadmapping, PRDs, User Stories, Stakeholder Management), Coding (Python, TypeScript, Java, C#), Data & Analytics (Power BI, KPI design), Databases (SQL, MongoDB, DynamoDB), Cloud & Systems (AWS S3, AWS Lambda, Azure Functions, APIs, Git)
- Interests: Competitive table tennis player (+15 years), Intermediate Pianist (4 years), Amateur bachatero
