

AMIR ALIZADEH

Chicago, IL | (872) 359-8181 | amiralizadeh.it@gmail.com

7+ years of software engineering experience combined with an MBAi from Kellogg, built to operate at the intersection of technical execution and business strategy, translating ambiguous client problems into AI systems that ship and hold up in production.

EXPERIENCE

2026 - Present	PHARMACY DATA SOLUTIONS <i>Forward Deployed Engineer</i> Currently serving as the technical bridge between AI capabilities and real-world business operations, rapidly prototyping and iterating on solutions in direct response to stakeholder needs	Westmont, IL
2026 - 2026	LOOKOUT <i>AI Business Operations</i> Led the integration of Netic AI into Lookout's contact center with the COO, running feedback sessions with Netic and internal sales to improve the model, scaling AI-handled calls to 100% of customer interactions	Evanston, IL
2025 - 2025	PHARMACY DATA SOLUTIONS <i>MBA Summer Intern (AI Integrations)</i> - Designed an AI-powered tool to automate document processing, improving scalability. Conducted data analysis and developed Power BI dashboards to generate client-facing reports, helping improve client satisfaction - Redesigned and re-architected the internal database on Azure, creating a unified data layer that all internal AI applications could integrate with reliably	Richmond, VA
2021 - 2024	PLAYABLES.AI <i>Senior Software Engineer - Internal Tools Team</i> - Led development of company's ad-making tool (QS Engine), generating 80% of total revenue and securing licensing contracts with many companies including one of the biggest streaming services in market - Designed development roadmap, incorporating user stories and user journeys to inform feature prioritization - Led early development of QS Smart Assistant, using QS Engine data to train a GPT model for executing user commands. Reduced task time by 50% and automated 60-70% of routine tasks for new users	Helsinki, Finland
2021 - 2023	LEGENDS OF LEARNING (EDUCATIONAL GAMES FOR STUDENTS) <i>Founder, CTO</i> - Led a cross-functional team of 12 developers to create and launch educational video games, resulting in 1,330+ hours of gameplay, 4,050 teacher assignments, and a 4.23/5.0 average feedback rating - Executed a data-driven go-to-market strategy by studying successful educational games, convincing teachers to use our games as assignments, leading to top rankings in science and math among all schools in LoL platform - Enhanced replayability and engagement through user research, increasing monthly retention by ~30%, optimizing input controls using A/B testing to identify student preferences between mousepad and keyboard	Espoo, Finland
2019 - 2021	PAF GAME STUDIO (FINNISH GAME STUDIO) <i>Software Engineer</i> - Developed a no-code game-making tool, accelerating the studio's prototyping pipeline and improving efficiency across two international teams by minimizing redundant steps in the development of casino games - Led the strategic planning and execution of migrating the company's technical infrastructure to Amazon AWS, collaborating with cloud engineers to align with business goals and reduce operational costs by 20%. - Directed technical development of studio's most profitable game, generating more than \$2M in gross revenue	Helsinki, Finland

EDUCATION

2024 - 2026	KELLOGG SCHOOL OF MANAGEMENT MCCORMICK SCHOOL OF ENGINEERING NORTHWESTERN UNIVERSITY <i>Candidate for Joint Degree: MBA, Artificial Intelligence, March 2026</i> <i>Leadership: VP of '26 ETA Club, VP of '26 KFit Club, Student Section Leader</i> <i>The MBAi program is a joint AI-focused MBA degree from Northwestern's Kellogg School of Management and McCormick School of Engineering, which develops analytically driven leaders with the technical foundation to develop, implement, and manage technical products and direct AI-enabled businesses</i>	Evanston, IL
2018 - 2022	AALTO UNIVERSITY <i>Master of Computer Science</i> <i>Leadership: Director of Aalto's Computer Science Guild, Aalto Startup Sauna, and Aalto Music Club</i>	Espoo, Finland
2014 - 2018	UNIVERSITY OF TABRIZ <i>Bachelor of Information Technology and Management</i>	Tabriz, Iran

ADDITIONAL DATA

- Skills: Coding (TypeScript, Python, Java, C#), Frameworks (Electron JS, Express JS, React JS, Prisma ORM, Better Auth), Databases (Postgres, MySQL), Cloud & Systems (AWS S3, AWS Lambda, Azure Functions, APIs, Git), Business & Client (Stakeholder Management, Requirements Scoping, Executive Communication)
- Interests: Competitive table tennis player (+15 years), Intermediate Pianist (4 years), Amateur bachatero
